TEC SECURITY

Re-open Safely with
Fever Detection
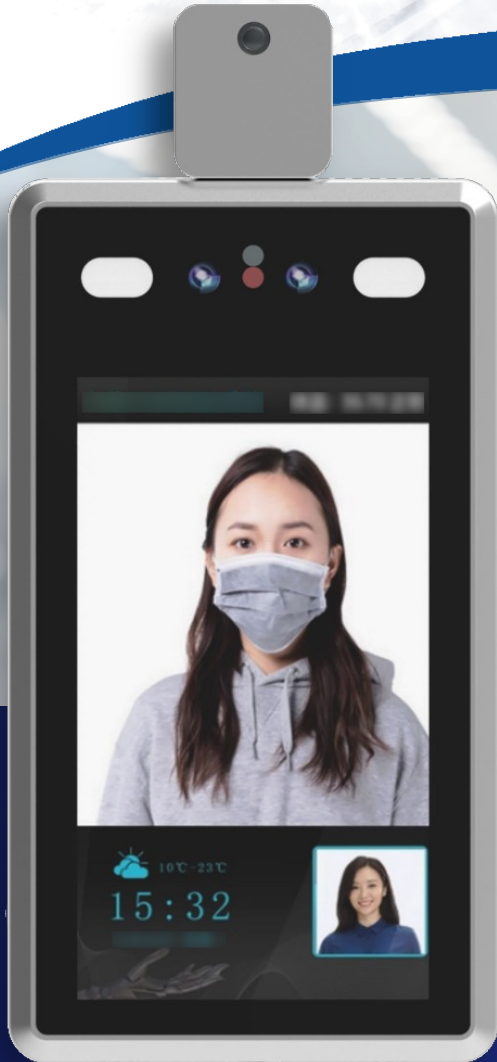

Keep Staff and Customers Safe

No Contact Temperature Screening

- Easy to Install – Plug and Play
- No Contact – Temperature check
- Quick – Rapid Detection in seconds
- Safe – Accurate results immediately
- Wide use – No internet required

You can re-open your office, construction site, manufacturing site or retail outlet with confidence. This standalone unit is plugged in at the entrance point to your site, the visitor approaches and the unit will scan and give results in seconds.

No queuing necessary, alarm will sound if the result is not acceptable, no contact necessary, will read temperatures even through face coverings. A straightforward, simple to use solution that is accurate and reliable.
