

Fitzwilliam Lawn Tennis Club

TO WHOM IT MAY CONCERN

TEC Security Services were awarded the contract to replace CCTV Security Installation at Fitzwilliam Lawn Tennis Club.

They started the installation on the date agreed

The engineers went about the installation in a very professional manner, very aware of the location in which they were working and at all times very courteous.

When they had finished their work in a particular area, they would clean up and put everything back in place.

It was very heartening to a Facility Manager not to receive complaints from members or staff regarding the attitude of contractors working in their areas of operation.

At regular intervals during the installation the management of TEC Security Services briefed me on the progress of the work and enquired if I was satisfied with their progress.

The after sales service is excellent with most calls being dealt with in a matter of hours.

The CCTV Installation is now over 2 years up and running. We are very satisfied with the quality of the equipment supplied and installed.

I would have no hesitation in recommending TEC Security Services.
